

Boost your tax savings

An LPFSA helps you save even more

A limited purpose flexible savings account (LPFSA) is specifically for eligible dental and eye expenses and is designed to pair with a health savings account (HSA).

Check out these highlights:

Keep even more money in your pocket

Having 2 accounts allows you to maximize your tax savings by contributing pretax funds to both accounts, up to the maximum limits. The money you put in your LPFSA is deducted from your paycheck before taxes and reduces your taxable income.

Preserve your HSA balance

By using your LPFSA for dental and vision, you're able to save your HSA balance. Since your HSA has interest and investment options and is your account to use forever, you can save and grow your money for the future.

Stretch your dental and vision savings

LPFSA-eligible expenses include deductibles, copays, dental, vision, prescriptions and your family's medical care – regardless of their health care coverage. Additional eligible expenses include:

- Dental visits/treatment
- Teeth cleaning
- Fillings
- Eye exams
- Contact lenses
- Eyeglasses
- Lasik eye surgery
- And more

Take charge of your savings

You decide how much to put in your LPPFSA. That amount is added as a lump sum on the first day of the plan year. Spending your LPPFSA dollars at dental and vision clinics is easy with your Optum Payment Card. Keep in mind, LPPFSAs generally don't allow you to use your funds after a specified date. Check your plan documents to see what your LPPFSA allows.
